VOLUNTEER OPPORTUNITIES

AVAILABLE for the
MOST AMAZING ADAPTIVE SPORT ON THE PLANET!

Soccer is a universal game played around the world and embraced by thousands on this planet. As you may be aware, there are many versions of this game, so it stands to reason that there would be an adaptive game for persons with severe disabilities, but don't let the word adaptive fool you. The game of **POWER SOCCER** is highly energized, fast-paced and has been played across our country for over 40 years, but only formally organized since 2006 when the national organization was formed, the United States Power Soccer Association (USPSA). It governs the sport of power soccer in the US and is a 100% volunteer organization, dedicated to the growth, integrity and spirit of the game. This is an incredible game played by persons with all types of disabilities, such as muscular dystrophy, cerebral palsy, spinal cord injury, stroke, and more. It gives the athlete in their power wheelchair the power to dribble, spin-kick and pass the ball to their teammate in order to score goals on their opponent. It is an exciting game with two-20 minute halves and played with a 13" soccer ball using a foot guard to maneuver the ball. It is a game that will inspire all who watch.

The **MK Battery Conference Cup Series** is the final games of the season and is for the championship win for each of these conferences that will be hosted here in Indy this June. The Cup Series is scheduled June 13-15th, 2014 and will take place at the Incrediplex, 6002 Sunnyside Rd., Indianapolis, IN 46236.

WE NEED VOLUNTEERS throughout the weekend to help score keep, time keep, run balls, Assistance at the airport, greeters, photographers are just a few of the needs. Four to five hour shifts will be scheduled, morning and/or afternoon times will be available. Each volunteer who volunteers a minimum of 4-hours will receive an event T-shirt and lunch. Please note, this could qualify someone for those volunteer community hours they may need! Come get involved and be part of this great event!

USPSA was founded in Carmel, Indiana in 2006 and governs the sport of power soccer in the USA. They are committed to the growth, integrity and spirit of the game.

Power Soccer of Indy (PSI) is a not-for-profit organization and the largest power soccer league in the country and oversees the sport for the State of Indiana. PSI is committed to the growth of power soccer in the region and is hosting these games for the Champions, Presidents and Founders Cups.

MK Battery partnered with the USPSA in 2013 to help support the growth of the sport across the US. Their support of USPSA's national team has been invaluable.

Power Soccer Shop is the premier shop for power soccer equipment in the world and will be broadcasting these games live starting June 13th. To watch the webcast go to:
